To,

**HUMAN RESOURCE MANAGER,**

**ATC KENYA.**

**RE: APPLICATION FOR THE INFORMATION SYSTEM ANALYST POSITION**

It is with great excitement that I present to you my enclosed résumé for review in reference to the above mentioned position. Throughout my career, I have had the opportunity to design and implement software and IT systems solutions that have delivered significant impacts to clients.

I possess strong leadership and architectural skills and wide breadth of technical knowledge regarding data management, networking, Data Recovery Operations, software applications development, and IT program management. I have a strong background in , systems integration, and client management. Now I would like to bring my unique IT and operations background to serve your company.

Technology simplification and consolidation is the cornerstone of my approach.

Your company will benefit from my expertise as a dynamic leader with a track record of success in identifying improvement opportunities, developing innovative solutions, and leveraging technology to optimize profitability and performance. My demonstrated strengths in relationship management and my broad technical knowledge have facilitated my sustained success.

I am confident in my ability to make an immediate and long-term contribution to your company and would welcome an opportunity to meet with you to discuss my qualifications and candidacy in further detail.

Sincerely,

**Lawrence Owuor**
